\*This medical report is <u>not</u> to be used for deputyship application. The affidavit and medical report to be filed in support of the application for appointment of a deputy or deputies shall be in Form 224.

\*\*This medical report alone does not prove that the LPA is valid. This medical report is to be used together with a valid LPA. If you wish to check the validity of any LPA presented to you, please check against the list of Revoked and Suspended LPAs on OPG's website.

## Explanatory notes:

- 1. All registered medical practitioners are able to issue medical reports for the purpose of LPA Activation/Deactivation; <u>not limited</u> to the list of accredited medical practitioners by the Office of the Public Guardian.
- 2. "Personal welfare" refers to matters such as deciding where to live and consenting to medical and dental treatment.
- 3. "Property and affairs", as the name implies, refers to matters concerning the patient's financial affairs and property.
- 4. Deactivation of LPA is in the event where the patient has regained mental capacity having previously been certified to have lost mental capacity, to repossess control of his/her Personal welfare and/or Property and affairs.

## Section 3 of the Mental Capacity Act

- (1) The following principles apply for the purposes of this Act.
- (2) A person must be assumed to have capacity unless it is established that he lacks capacity.
- (3) A person is not to be treated as unable to make a decision unless all practicable steps to help him to do so have been taken without success.
- (4) A person is not to be treated as unable to make a decision merely because he makes an unwise decision.
- (5) An act done, or a decision made, under this Act for or on behalf of a person who lacks capacity must be done, or made, in his best interests.
- (6) Before the act is done, or the decision is made, regard must be had to whether the purpose for which it is needed can be as effectively achieved in a way that is less restrictive of the person's rights and freedom of action.

## Section 4 of the Mental Capacity Act

- (1) For the purposes of this Act, a person lacks capacity in relation to a matter if at the material time he is unable to make a decision for himself in relation to the matter because of an impairment of, or a disturbance in the functioning of, the mind or brain.
- (2) It does not matter whether the impairment or disturbance is permanent or temporary.
- (3) A lack of capacity cannot be established merely by reference to -
  - (a) a person's age or appearance; or
  - (b) a condition of his, or an aspect of his behaviour, which might lead others to make unjustified assumptions about his capacity.
- (4) In proceedings under this Act (other than proceedings for offences under this Act), any question whether a person lacks capacity within the meaning of this Act must be decided on the balance of probabilities.
- (5) Subject to section 21, no power which a person ("D") may exercise under this Act
  - (a) in relation to a person who lacks capacity; or
  - (b) where D reasonably thinks that a person lacks capacity, is exercisable in relation to a person below 21 years of age.

#### Section 5 of the Mental Capacity Act

- (1) For the purposes of section 4, a person is unable to make a decision for himself if he is unable -
  - (a) to understand the information relevant to the decision;
  - (b) to retain that information;
  - (c) to use or weigh that information as part of the process of making the decision; or
  - (d) to communicate his decision (whether by talking, using sign language or any other means).
- (2) A person is not to be regarded as unable to understand the information relevant to a decision if he is able to understand an explanation of it given to him in a way that is appropriate to his circumstances (using simple language, visual aids or any other means).
- (3) The fact that a person is able to retain the information relevant to a decision for a short period only does not prevent him from being regarded as able to make the decision.
- (4) The information relevant to a decision includes information about the reasonably foreseeable consequences of -
  - (a) deciding one way or another; or
  - (b) failing to make the decision.
