6-MONTHLY RETURN BY STUDENT CARE FEE ASSISTANCE (SCFA) ADMINISTRATORS

Notes

1. As an SCFA Administrator, your centre is required to provide the following twice a year for two reporting period of November - April and May - October:
 - (a) updates on your centre's monthly capacity,
 - (b) overall student care enrolment,
 - (c) number of children receiving SCFA Subsidies at your centre, and
 - (d) other required information such as centre's email address, supervisor's and owner's name and mobile number.

2. For the purpose of reporting the number of SCFA children, please only report approved SCFA subsidy cases. Pending cases should be reported as Non-SCFA children, as their subsidy application status is not known.

3. You may wish to refer to the following to compute (a) Capacity; (b) % of SCFA Children based on the Total Enrolment of the Centre; and (c) Programme Staff : Child Ratio :-
 - (a) Capacity. The 'Capacity' of the centre is calculated using this formula: *Centre's usable floor area (in meters square m²) divided by 3*. For example, a centre with a usable floor area of 90 m² will have a maximum enrolment capacity of 30 students at any point in time. Please note that usable floor area includes only the activity area for students and does not include ancillary areas such as kitchen, store, toilets and staff office/sick bay.

 - (b) % of SCFA children based on the total enrolment of centre. To obtain the '% of SCFA children based on the total enrolment of centre', please use the total figure of both AM+PM 'No. of SCFA children' and divide this number by the total enrolment (AM+PM) of the centre. Proceed to multiply the result by 100 to obtain the % figure.

 - (c) Programme Staff : Child Ratio. The 'Programme Staff : Child Ratio' takes into account the total number of Programme Staff (Supervisor, Teachers, Assistant Teachers) versus the number of Children (Students) in one particular session (either AM or PM session). For example, if the centre has 1 for each category, there are a total of 3 Programme Staff. Assuming the centre has 30 students in the morning (AM) session and 27 students in the afternoon (PM) session. The Staff : Child ratios are expressed as 3 : 30 (AM) and 3 : 27 (PM) respectively. Please reduce the fraction accordingly, resulting in 1 : 10 (AM) and 1 : 9 (PM). The ratio to report is the higher figure, in this case, the AM session of 1 : 10 should be reported. For a reporting period spanning 6 months, the highest figure for a particular month should be reported. Please note that the Programme Staff : Child ratio stipulated in the minimum requirements for SCFA administrator is 1 : 25.
